Los Osos at its finest. This single level home shows pride of ownership. Current owners invested and updated it as their forever home. Plans changed and are ready for a new owner to enjoy their hard work. Great value and is a must-see for sure! Starting from the top a new roof has recently been installed. This home features 4 bedrooms with 2 baths, the master bathroom has just been fully renovated and the 2nd bath has been modestly upgraded. Interior ceilings and walls have updated texture and paint as well as most windows have been updated and flooring throughout. The Kitchen has renovated cabinetry, new countertops, LED lighting, backsplash with updated appliances & sink. Plenty of natural light comes through the kitchen and family room windows. There is a large 2 car garage with new insulation/sheetrock and has plenty of room for storage. There is space for RV parking and the back yard has room for storage
